

API Portfolio

Johnson Matthey Fine Chemicals provides an extensive range of APIs and we have specific expertise in platinum-based actives and prostaglandins. Our products cover a wide range of therapeutics classes, such as: anti-cancer, anti-rheumatic, addiction, psychiatric disorders and ophthalmic indications. Our APIs & Life Cycle Management offering combines innovative business models with collaborative process development to strengthen your products, while reducing your risk.

Our Controlled Substance and API Portfolio is supported by a global network of GMP facilities: West Deptford, NJ; Conshohocken, PA; Devens, MA; North Andover, MA; Edinburgh, UK and Annan, UK.

API Portfolio	CAS NUMBER
Alprostadiol	745-65-3
Apomorphine Hydrochloride	314-19-2
Auranofin	34031-32-8
Bendamustine Hydrochloride	1374784-02-7
Bimatoprost	155206-00-1
Bromfenac Sodium	91714-94-2
Carboplatin	41575-94-4
Carmustine	154-93-8
Cisplatin	15663-27-1
Decitabine	2353-33-5
Diprenorphine	14357-78-9
Edrophonium Chloride	116-38-1
Epoprostenol	61849-14-7
Fluvoxamine Maleate	61718-82-9
Gold Sodium Thiomalate	1224-57-4
Iloprost	78919-13-8
Latanoprost	130209-82-4
Metaxalone	1665-48-1
Misoprostol	59122-46-2
Naloxone Hydrochloride	51781-60-8
Naltrexone Hydrochloride	16676-29-2
Oxandrolone	53-39-4
Travoprost	157283-68-6

Controlled Substances

Johnson Matthey Fine Chemicals has spent 200 years building an extensive range of opiates and controlled substance. Our heritage includes Macfarlan Smith Ltd, the world's leading manufacturer of opiate alkaloids. Additionally we specialise in other areas such as cannabinoids and synthetic stimulants. Our extensive experience in handling controlled substances gives us significant understanding of the critical issues surrounding these areas, as well as an excellent relationship with the relevant governing agencies such as the US Drug Enforcement Agency.

Our Controlled Substance and API Portfolio is supported by a global network of GMP facilities: West Deptford, NJ; Conshohocken, PA; Devens, MA; North Andover, MA; Edinburgh, UK and Annan, UK.

Controlled Substances	CAS NUMBER
Alfentanil Hydrochloride	70879-28-6
Amphetamine Aspartate	25333-81-7
Amphetamine Sulfate	60-13-9
Buprenorphine Base	52485-79-7
Buprenorphine Hydrochloride	53152-21-9
Cannabidiol	-
Codeine Monohydrate	6059-47-8
Codeine Phosphate	41444-62-6
Codeine Sulphate	1420-53-7
Dextroamphetamine Saccharate	-
Dextroamphetamine Sulfate	51-63-8
Diamorphine Base	561-27-3
Diamorphine Hydrochloride	1502-95-0
Difenoxin Hydrochloride	28782-42-5
Dihydrocodeine Hydrogen Tartrate	5965-13-9
Etorphine	14521-96-1
Fentanyl Base	437-38-7
Fentanyl Citrate	990-73-8
Fentanyl Hydrochloride	1443-54-5
Hydrocodone Bitartrate	34195-34-1
Hydromorphone Base	466-99-9
Hydromorphone Hydrochloride	71-68-1
Lisdexamfetamine Dimesylate	608137-33-3
Methamphetamine Hydrochloride	51-57-0
Methylphenidate Base	113-45-1
Methylphenidate Hydrochloride	298-59-9
Morphine Hydrochloride	52-26-6
Morphine Sulphate	6211-15-0
Morphine Tartrate	302-31-8
Nabilone	51022-71-0
Oxycodone Base	76-42-6
Oxycodone Hydrochloride	124-90-3
Oxymorphone Hydrochloride	357-07-3
Pholcodine	509-67-1
Remifentanil Hydrochloride	132539-07-2
Sodium Oxybate	502-85-2
Sufentanil Base	56030-54-7
Sufentanil Citrate	60561-17-3
THC in Ethanol	-
THC in Sesame Oil	-
